

Official News-Letter of the Founders' Younger Boys' Camp

The American Youth Foundation, 3713 Washington Boulevard, St. Louis, Mo.

December

HELLO, YOUNGER BOY CAMPERS AND LEADERS!

1935

A great, big, happy Christmas to you all, and a New Year brimful of good times, good health, good marks in school! And I might add good camping experience and that, of course. means Miniwanca for you next summer!

IT HARDLY SEEMS POSSIBLE

That less than six months from the very moment you are reading this letter, you will be back at Camp Miniwanca. That is, of course, if you are coming back. That "if" should not be there at all; of course you're coming back! Miniwanca sort of gets under a fellow's skin and it is mighty hard to

stay away once you are bitten by the Miniwanca bug. The further you get away from camp, the more you realize how valuable those great experiences were. Yessir, within six months we'll be making the old dunes ring with the jolly shouts of the Y.B. Camp bunch! The camp opens on June 17 and winds up on August 3.

CAN YOU PICTURE YOURSELF

sitting there again around the fire when the old "camp spirit" is dug up and the last will and testament of the 1935 campers is read to the new campers and the old ones who will assemble next summer at Camp Miniwanca. And if that old stockade could speak, what tales it would tell right now of the skits, and jokes, and puns, and wisecracks, and the ghost stories (0i, 0i;) and all the thrilling events that happened last summer around the fire.

WE HAD HOPES THAT WE WOULD BE ABLE

to plan for eight weeks of camping next summer, but when we went into a huddle here at the office and studied the whole situation, we found that it just couldn't be done. We have the two big senior camps that must be handled in August and Digitized by the Internet Archive in 2016 with funding from The American Youth Foundation

the first own tiles a fact that the same of the court of the

the second secon

there just isn't enough time to stick in those eight weeks, so the camp next summer will be seven weeks just as it has been during the past years. And incidentally, speaking of the senior camps, the fellows in Y.B. will be interested to know that last year after you all left the grounds we had two of the biggest senior camps in the history of the American Youth Foundation. Around 250 girls and leaders and nearly 300 older fellows and leaders, from more than 35 states and Canada, assembled in the two different camps - the older girls first and then the older fellows the last two weeks of August to wind up one of the finest camping seasons we have ever had. Some day you Y.B. fellows are certainly going to look forward to getting in on the Older Boys' Camp and what a big thrill you will get out of it.

A BIG BUNCH OF BOYS AND LEADERS FROM Y.B.

attended the Older Boys' Camp. Included in the group were Joe Verlie, George Bramhall, Bob Mueller, Richard Coombs, Kenyon Swartwout, Karl Kuehne, Elmore Trout, George Gruenewald, Paul Reuman Bill Acosta, Garrott Allen, Al Alspach, Jim Bell, Fred Brewster, Gus Gruenewald, Gordon Letterman, John MacBean, Clarence McCall, Art Gastorf, Stanley Menning, Harry Monroe, Wayne Monroe, Stuart O'Byrne, Bob Shank, Lloyd Whiting and Steve Zetterberg. Have we missed anyone?

YOU CAN SEE FOR YOURSELF THAT THE Y.B. CAMP

has a real hook-up to the big fast-moving senior camp, and what a thrill some of you fellows are going to have when you step out into fast company and team up with high school and college men and business fellows from all over this continent of ours. You can get some idea of the fine type fellows we have in that senior camp when I tell you, for example, of men like Jim Hartman, Captain of the University of Colorado football team - a great, big, husky hard-muscled chap - just as fine as he is big and hard - who every morning would get up before the rising bell, start out of the camp down across the bridge, around the road past Y.B., up

the old log road, chase up the back side of Old Baldy, run down to the beach and along the beach to the camp just to keep in trim for the football season. What a man! What a man! Incidentally, Jim, although not a high jumper, set a new high jump record in the Older Boys' Camp. And he said that it was all due to Miniwanca training and to the fact that our Miniwanca style of recreation brings every fellow into the game and doesn't shove anybody off into a corner. He said he would not have tried for the high jump if it were not in the program and if

he had not been expected to do it along with all the other fellows. Jim certainly was surprised when he found that he had cleaned up the whole camp, and incidentally discovered a new sport in which he was proficient and to which he formerly had not paid much attention.

AND THAT'S JUST EXACTLY THE WAY WITH MINIWANCA

The whole idea is to get the boys and girls in all the camps to just see how much they are worth and how far they can go in developing themselves along the four sides of their lives. You bet your life you fellows are going to get a kick out of swinging up into the Older Boys' Camp one of these fine days.

AND HERE'S A POSSIBLE NEW ONE FOR YOU OLDER FELLOWS

- I mean you fellows who have come up through the Younger Boys' Camp and perhaps are just a little bit too old for that unit and who want more than the two weeks of camping offered by the Older Boys' Camp. What would you say if this very next summer we went back into the camp property and started to carve out a new unit for you fellows? We'd give you a few tent platforms and a couple of tents and a couple of choice college men leaders and let you go to it and blaze new trails. You would have the privilege of using the crafthouse at certain hours, you would, of course, have full use of the waterfront equipment, would participate with the Y.B. Camp in certain of its activities, possibly would be given certain leadership responsibilities in connection with Y.B. Camp, such as umpiring and refereeing games, and so on. There is just a possibility that you might have the chance to build a meeting place of your own. In other words, a real pioneering experience for you older fellows with a dandy fine hook-up with your old pals and buddies in Y.B. What would you think of a proposition like that?

LAST SUNDAY, I PUT THIS UP

to a bunch of the older fellows here in St. Louis, and told them to think it over. Bill Oliver, Murchie, Jim Orwig, Marvin Boisseau, and one or two other fellows were in the group when we spoke about this - just hurriedly. I have since had word from several of the fellows and they tell me they think it is "a whale of an idea." Now the rest of you fellows who are in that upper bracket of the Younger Boys' Camp and might be interested in this special pioneering camp idea, I wish you would write me a note red hot right off the bat and let me know what you think about it. Personally, I think it's a dandy idea with tremendous possibilities and I believe you fellows could have one of the finest camping experiences that you ever have had or ever will have and I believe, too, that you can make a real name and place for yourself in Camp Miniwanca history by tackling this project this summer. If you are interested, drop me a note right away quick!

FOUR NEW SAILBOATS ADDED TO THE FLEET

Yessir, believe it or not. That means that next summer we will have a fleet of eight sailboats and that means, too, that every fellow in the camp is going to have more opportunity to get on those boats and do some real sailing. I am certain that that will meet with the approval of every Miniwanca camper.

AND A NEW SAILBOAT PIER, TOO

Yessir, believe it or not. We are planning to run a narrow pier out from the shore into the lake some fifty or sixty feet and it is our plan to tie the sailboats up to the north and

south of the pier. That pier will not be used for anything but boating purposes. It is altogether likely that the pier will be built about forty yards south of the present south pier so that when we have our swimming we would have a forty yard straight-away as well as the twenty yard stretch which we now have between the other two piers. How does that sound to you? Don Beck, what say you? And all the rest of you, how will that hook-up strike you?

SEVERAL MORE CANOES

will be added to the waterfront equipment. This will mean that the fellows will have a little more opportunity for canoeing instruction and we can tackle this phase of our waterfront program a little bit more efficiently than we have been able to in the past. How! How!

WE CERTAINLY HOPE THAT ART WILL BE BACK WITH US

Art did a wonderfully fine job last year on the waterfront. He was fair, impartial, always courteous and obliging, and yet firm in carrying out the rules and regulations of the waterfront program of the camp. Our hats are off to you, Art! Thanks for the mighty fine job that you did for us last summer. Come on back and do it again next year. Every fellow and every leader in the camp will certainly second this motion. What do you say?

CHARLIE THOMPSON IS A HUNTER BOLD

Every year, Charlie swings up into the north woods of Michigan to see if he can bring down a big buck with his trusty rifle and don't kid yourself about Charlie as a hunter. Let him get a good shot at any buck whether he is standing still or on the move, and you might just as well ring up the score for Charlie. Now don't get excited. I am sorry to disappoint you. Word has come nat although he went a-hunting, all the bucks in the north woods

from Charlie that although he went a-hunting, all the bucks in the north woods stayed out of his way. He saw lots of does but nary a buck, so Charlie had to come back empty handed. Better luck next time, Charlie:

AND SPEAKING OF DEER REMINDS ME

that we have them on our very own property at Camp Miniwanca. Some of you campers came across their trails at various times during the summer. They are mighty shrewd, those deer, for they know how to keep out of sight during the summer months when the woods are full of other wild animals of the two-legged variety. But one morning about the middle of September just after a hard rainfall the night before, Charlie Thompson, Rudolph Burmeister and I were walking along the ridge road between the Assembly and the garage at the turn of the road leading up to the top of Vesper Dune. Suddenly we stopped, looked down at the soft wet earth, and there were the marks of a huge buck and a doe. They had apparently come down the steep slope of the dune from Vesper Dune into Council Dell draw, then up the slope toward the road and from that steep sloped bank they leaped clear over the fence that lines the road and landed ka-plunk in the middle of the road. We followed their tracks a bit and found that they had headed a little bit north-east down through the draw and up over the big dune leading to the back of the kitchen. Some day we're going to run across those fellows when the bunch is up there in the summer months, and what a sight it is going to be to welcome these fine friends of ours officially into Y.B. Camp.

AND THAT LEADS ME TO ADD

that we have made Camp Miniwanca a game preserve. Application is being made to the Conservation Department of the State of Michigan and when all the formalities have been observed, we will have made Camp Miniwanca a shelter for wild life of all kinds. The camp will be posted with the official signs of the State of

Michigan Conservation Department. This will mean that no one with firearms may come onto the grounds, and shooting and hunting will be positively prohibited. I think all Miniwanca campers will be delighted with this move for it will undoubtedly mean that we will have an increase of wild life on the camp property and that, of course, will be very acceptable to the campers during the summer months.

SPEAKING OF CHARLIE THOMPSON -

Charlie writes that he has done a lot of work in the Younger Boys' Camp since the close of Y.B. last summer. The backstop, for instance, is painted, the big hole in the fence and the washout of sand at the southeast corner of the tennis court have been repaired. A good drainage line has been installed at that point so that the heavy rains will not cause any more washouts. The Clubhouse is having a new coat of stain and the doors and the window sills have been painted so that everything will be fresh and nice when we get back to camp next summer. Other improvements are being made, including say it in whispers

A NEW BIFFY

Yessir, believe that or not. This fine golf course will be erected to the north of the trail leading over to the main camp unit. It will serve the tents on the north side of the camp. This will be a very fine addition to the Younger Boys' Camp equipment and will be welcomed by all campers and leaders. And boy, oh boy, you should see those

NEW EATING LODGE IMPROVEMENTS

A streamlined addition has been added to the south side of the kitchen and the kitchen itself enlarged on the east, south and north. Next summer it is going to be possible for the campers to grab their tray of dishes, go out into the new streamlined addition, put their trays down on the long zinc-lined table, and keep moving right around back to where the old porch was, and in through a new doorway to the old aisle where the bunch used to crowd in with their dirty dishes and which will no longer be crowded or congested, and then a fellow can grab a brandnew tray and move right straight ahead without a stop to the serving counter, get his food and go right out into the Eating Lodge without being held up or delayed. Now what do you think of that? That certainly is going to speed up things a lot and will bring the food to us quicker and with less work on the part of the campers and the fellows in the kitchen. You just won't know that old kitchen when you get back to camp next summer. It is going to look so fine and so new and so attractive that you will think it is a brand new addition. Charlie Thompson assures us that he will have it so good-looking that we just won't believe it is the same place.

THAT'S A GREAT BUNCH OF LEADERS WE HAD LAST SUMMER IN Y.B. CAMP

No doubt you have been hearing from some of them. A fine big letter came the other day from Don Beck who is now with a big advertising firm in New York City. Garry Allen is at Harvard Medical School, Don Roberts and Bob Shank at Washington University Medical School in St. Louis; Gordon Letterman is also at Washington. Johnny MacBean is holding forth valiantly at Minnesota State and Jim Bell at Macalester. Bill Acosta is giving a good account of himself at Kentucky State University, and Fred Brewster is hitting it on all six feet four at Oberlin. Steve Zetterberg is continuing his fine work at Pomona College in California.

Clarence McCall is at Chicago Theological Seminary; Harvey and Lloyd Whiting at Toronto University. Dave Orwig has broken into Westminster College - swimming pool and all. Al Alspach is burning the midnight oil studying law, and incidentally is a church organist. Harry Monroe is teaching school in western Pennsylvania, and his brother, Wayne, is at Grove City College. Stuart O'Byrne is continuing his nature study instructional work with leadership groups here in St. Louis A fine bunch of men and we are all grateful to them for the fine contribution they made last summer to Camp Miniwanca and to the lives of the fellows who were in camp.

DO YOU REMEMBER ...

the big day when the program was changed and the whole camp hied itself down to the woods at the foot of Old Baldy and started to tackle those big trees to make a new ball diamond? I'll never forget Don Roberts' description of the scene. A big tree chop, chop go the axes down comes the tree and immediately a swarm of boys tackle the branches cut up the tree and drag it away almost before you can wink your eye And boy, oh boy, when Charlie Thompson appeared with the sticks of dynamite and began to blast out stumps. I have Dick Oberdorfer's shirt on my desk the shirt that was left on one of those stumps a little tear and a little rip but the rest of the shirt is entirely whole. Some shirt, Dick. You ought to get the shirt and send it to the manufacturer and get him to send you a half dozen new ones in return for the publicity.

AND DO YOU REMEMBER

that same day when the manicuring establishment was opened on the old ball diamond? Tubs of hot water, leaders with scrub brushes and nail files, and every fellow had his hands and feet properly groomed, and everybody liked it, too. We will certainly have to do that again.

AND DO YOU REMEMBER

the big Fourth of July celebration - with the canoe and sailboat races, and the little model sailboat events, the supper on the beach, and of course the big fireworks display, especially the pinwheel that did not spin.

AND OF COURSE, YOU DO REMEMBER

the big camper-leader ball game on the Fourth of July. But why bring that up?

AND, BOY OH BOY, DO YOU REMEMBER

the annual hike to Little Point Sable and the lighthouse and the big rainstorm? Those are the experiences that prove that the Miniwanca Y.B. campers can take it!

AND DO YOU REMEMBER

those fine stormy days when we played in the big breakers in Lake Michigan Champ Jewitt and his fine clarinet solos Frankie Lowe and his bait-casting rod, and especially the time when the big turtle ate

to your 11 State of all the

one of Frankie's catches that he had tied to a string and tossed into Stony Creek until he returned from his down stream trip and of course, you do remember the Sunday morning birthday parties in Stony Creek when the camp had its "annual."

WHO DOES NOT REMEMBER

the marvelous sunsets, the moonlight games, the hayride, the fine friendship of the hillside vesper hour and the Sunday morning services on Chapel Dune?

AND ON, AND ON, AND ON, AND ON

we might go recalling to our minds the wonderful times that we had last year at Camp Miniwanca, but time and space in this issue will not permit many more "fond recollections." I am sure that every fellow and leader lives over those events times without number and is eager for the days to pass by until we shall be doing it all over again next summer.

THIS LEADS ME TO WONDER IF YOU HAVE AS YET ENTERED

the Camp Savings Club. Campers are being registered almost daily and the Camp Savings Club Plan is proving to be more popular than ever. Full information was sent to you some weeks ago. If you have mislaid it or overlooked the matter, dig up your information and read it all over again. This is a fine way to accumulate your camp fee over the winter months, and there is a cash bonus for those who are members of the Camp Savings Club. If you have mislaid your information, write for another copy.

OF COURSE, YOU DO KNOW

that boys who have attended Camp Miniwanca are privileged to recommend their friends for enrollment in the camps of the coming summer. For every camper that you enroll and who attends Camp Miniwanca for the full seven weeks' term, a discount of \$15.00 is allowed on your camp fee. If one of your friends enrolls for four weeks and attends camp for that time, then your bonus amounts to \$10.00 which is deducted from your camp fee.

THINK THIS OVER

and also talk it over with your folks. Then make up a list of prospective campers that you would like to recommend for Camp Miniwanca for the season of 1936. Send us the names and addresses of the boys, also their ages, and their parents' initials. We will put your prospects on our mailing list and see that they get the releases that go out from our office. We will help you in every way possible to line up your camp prospects.

AND REMEMBER, TOO,

that this next summer we are going to keep the enrollment in the Younger Boys' Camp down to a workable limit. Last summer there were sixty-two boys in attendance at the first period of the Younger Boys' Camp and there were 77 boys in attendance at the second period. We want to keep the camps right around that point and so the old campers are urged to reserve their places so that they are sure to be in on the ground floor. If we are compelled to, we would much prefer to turn down a new camper rather than one who has previously been to Miniwanca.

AND NOW WON'T YOU PLEASE READ THIS LIST OF NAMES CAREFULLY

These are the boys for whom reservations have been made for next summer's camp. We are listing them because we would like to have the parents and campers very carefully check the list. It is possible that reservation blanks may have come to our office and been lost in the shuffle of moving all the records and files back to St. Louis from Camp Miniwanca. If your name is not on the list and you want a place reserved, won't you please rush your name in right away. You will note that thirty-two boys are already registered for the 1936 Y.B. Camp. That is 50% of last year's first term enrollment and here we are six months away from camp days.

Carter Allen Charles Beaver Raymond Billett Robert Billett Charles Boydstun Bill Brett Junior Bromley Billie Carr John Christian Arthur Eisenbrey Edward Eisenbrey Starr Jenkins Junior Jensen David Jewitt Jack Hazelton Robert Huff

Henry McFalls Harry. Musser B. W. Newsom, Jr. Bill Richards Jim Richards Dale Shaeffer Merrill Shaeffer John Sheckler James Campbell Smith John Smith Charles Swartwout John Terry Willis Terry Proctor Waldo Teddy Weakley Donald Wells

I KNOW YOU WILL GIVE THIS PROMPT ATTENTION

and I am just hoping, too, that your registration will come in before the first of the year, if your name is not already on the list.

AND HERE WE ARE WITH A FINE MESSAGE FROM GUS

We'll give it to you just as he has written it, and while we are at it, let's all give Gus a real hearty "How! How!" for his untiring devotion, the immense amount of real hard work, his unswerving loyalty to the fellows and the Founder ideal, in short, for everything that Gus did to make last summer's camp a big success and of so much meaning to the campers and the development of their own lives. Gus, our hats are off to you, and here are our sincere thanks.

* * * * *

"It was my pleasure to have another chat with Carroll Sibley, the other day. He is the only fellow in the world to earn all of the 101 Boy Scout merit badges! We talked about 'good old times' at camp, and toward the close of our conversation he said, 'Gus, I'll never regret the balanced program of living that I learned as a younger boy.'

"Just last night, Dan Beard spoke to a group of us at a banquet celebrating the looth anniversary of Mark Twain's birth. Among other things this great American pioneer said, 'On the frontier we had to learn to defend ourselves against enemies but first of all we had to learn how to live, irrespective of enemies.'"

"It seems to me, fellows, that's the big idea behind our wonderful camping experiences at Miniwanca - we learn how to live at our very best all the time. We all know a lot of kids who don't work with a purpose, don't study with a purpose, and don't even play with a purpose. They don't know when to have fun, and that sometimes they must be serious!

"I'm recalling now some of the swell times we enjoyed on the sand dunes last summer. Who was it that couldn't find the red hair on 'Brad' Eisenbrey's head? And can't you still hear Orndorff and his motley crew shouting, 'Old Man Bluebeard, Ah, Ah, AH, AH!? Who said that Don Roberts couldn't climb a tree and really be a 'Lost Leader' just for a night? And I guess maybe the leaders who hid the trick notes on the Treasure Hunts and the Hare and Hound Chases didn't fool a few campers!

"No doubt, we all remember the night 'Squawman' and Garry made funny marks in the beach sand - and what good imaginations a few of us had! 'On your honor have you got the Bacon?' And 'On your honor did you find any of those two million peanuts in the woods the night of the Hayride?' Sure enough - here comes Bob Shank with his quintuplets! They deserved the group prize that night; and don't forget how Arvid Pierre Zetterberg and Vincent Peterson copped the couple's prize.

"Murch, Orwig and their gang certainly knew how to keep dry when the first section hike almost got 'rained out' - didn't they? And my hat's still off to Chuck Jackman for identifying so many objects at Minisino's new cabin that night! It's a great thing, boys, to be able to see everything you look at - as evidenced in the Kim's game when the Breakers recorded five items that weren't even on the big ping pong table.

"And who could forget 'Father Neptune' Alspach the night of the big water pageant and the war-canoe and sailing races in the big Fourth of July celebration. And, oh yes, the fireworks on the beach - especially the pinwheel that didn't go round.

....." and so on into the night' - for there wouldn't be enough room in ten issues of our Trail if we kept on recalling our many joyful experiences at Miniwanca. I do want to leave room enough to say a big MERRY CHRISTMAS to you, and a most HAPPY NEW YEAR! You know some fellows only say 'Thank you' on Thanksgiving, but it seems to me Christmas offers a good chance to stop and think how thankful we ought to be for the many gifts we get - especially the gift of a term at camp each summer.

"Let's join the thousands of other fellows and girls throughout the world who have shared in the privileges of Miniwanca, and think together for a few minutes on Christmas Eve about the real things Miniwanca stands for. As I offer thanks for the joys of last summer and wish you the Season's Best Wishes, I add the hope that Santa Claus will include in your stocking a gift for a term at Miniwanca during the summer of 1936. And all through the days of 1936, let's try hard to live our lives in a balanced way - physically, mentally, socially and religiously."

Your friend,

Gus

WELL, ALL GOOD THINGS MUST COME TO AN END

and that includes The Trail. You will find herewith a copy of the roster with the names and addresses of all campers and leaders. We are rushing this out to you so that you will have a chance to send a card to some of your friends, in the event of this being in your mind, for the holiday season. And then, too, I am sure you will want to write some of your buddies during the year and tell them what you are doing. And so we send you the camp roster.

FINALLY

Here's hoping that you have the merriest kind of a Christmas and that Santa Claus will be nice and kind to you and that you will be kind to Santa Claus, too! And then here is the hope that you Younger Boy Founder fellows will face the new year with the determination to make it the best year so far of your fine young lives. You know it is up to you to make the year just what you want it to be. Keep your head up, your mind clean, your body strong and clean, and keep that fine, big smile on your face as you make up your mind that throughout 1936 you are really going to be "My own self at my very best all the time."

Founderly and sincerely yours,

Wadjefsi

MINISINO'S NEW YEAR MESSAGE

and depote the transfer of a party

of the second second second second

All and the second of the second

<u>1936</u>

STAND TALL

THINK TALL

SMILE TALL

LIVE TALL

I hereby pledge myself that I will Grow Tall in 1936 and will work out a program for my own life to that end.

(Sign here)

If you will show that you have the grit and grim determination to sign this and keep it for yourself alone, I'll guarantee that you will LIVE a TALL life in 1936. If I could feel that your training at Camp Miniwanca has been a real help in your Growth, it would add to my happiness all through the New Year.

Waterpar
